Science Mum - October School Holidays at Bassendean Library

What is Science Mum? The Science Mum is a small business committed to providing fun STEM learning experiences for budding little scientists.

Website www.thesciencemum.com.au

What is Stem? STEM stands for science, technology, engineering, and math.

The Science Mum
- science for kids -

This is a hands-on workshop where the participants will be guided through fun experiments using candy. You can expect to see lots of colour and have fun with sweet reactions. This workshop will give you the opportunity to measure and observe like a scientist. You will practice your scientific skills by attempting to remove an M from an M&M.

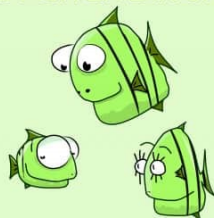

Please book by the following link.

<https://www.trybooking.com/BKZWY>
or 9279 2966

Age: Suitable for Age 5 -9

(for safety reasons, please avoid bringing younger siblings)

Q: WHY DO FISH LIVE IN SALT WATER?

A: BECAUSE PEPPER MAKES THEM SNEEZE!

Social distancing and sanitary requirements need to be followed.
Thank you

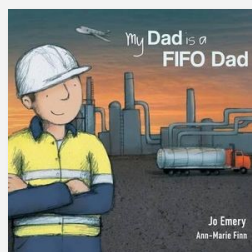

Ninja kid series by Anh Do

Nelson is a nerd! Unfit, uncool... totally awkward! But when he wakes up on his tenth birthday, he discovers he is a NINJA! THE LAST NINJA ON EARTH! How is he going to save the world when he cannot even get his undies on the right way?! With the help of Grandmas inventions and his wild cousin Kenny, can Nelson master his new ninja skills AND save Duck Creek?

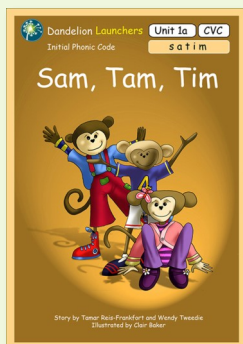

Father's Day craft.

Colour in the ribbon in your Dad's favourite colours. Then cut it out and give it to Dad on his special day.

My Dad is a FIFO Dad by Jo Emery.

My Dad is a FIFO Dad is a book that will touch many families across Australia and the world, whom experience separation because of FIFO/DIDO work arrangements. My Dad is a FIFO Dad is a heart-warming and funny story about a child who feels the love of her Dad even when he is absent at work. It can be enjoyed by children of all ages. While the topic is associated with the FIFO lifestyle, it resonates with anyone who believes in the unity of family.

"THERE'S NO SUCH THING AS A KID WHO HATES READING. THERE ARE KIDS WHO LOVE READING, AND KIDS WHO ARE READING THE WRONG BOOK."
- James Patterson

A phonic series for beginner readers.

Aimed at children aged 4-7, each book introduces only a few letter/sounds at a time allowing independent reading from the outset. Four books in each unit provide practice whilst offering different stories. Each unit introduces new letters/sounds while revising previously taught phonic letters/sounds and high-frequency or sight words.

How can I get them out?

The Dandelion Launcher series is most effective when each level is taken out as one loan. Each level will be placed behind our library counter in closed bags, and their corresponding laminated sheet will be placed in the children's area. Please bring the sheet to the counter, and we will exchange it for the series bag. Each series has 4 small books that take the new reader through each phonetic sound, allowing them to slowly join sounds together and make words. We recommend that you begin at level one and work your way through the series.
